

“The education at TYIS covered a wide variety of topics”

*** This student entered American School in Japan in 2008**

Q1 : Please introduce yourself. (Current School, Age, How long have you been at TYIS?)

I have been at TYIS for 7 years. My current school is the American School in Japan and I'm 15.

Q2 : What were your favorite subjects / programs? What did you like about our teaching staff?

At TYIS, I really liked the after school programs because it had a wide variety of activities. Teachers were nice and taught us well. Also since our school was not small, every teacher knew every student and that made me feel comfortable.

Q3 : Please tell us about any of your memorable events / friends etc.

Through the years at TYIS, I made many friends. Many of them were from different grade. Since the number of students was not enormous, we look out for friends not only from a same grade but also from the entire school. We really get to know each other with friends.

Q4 : How did your TYIS education help you to adjust to your current school?

The education at TYIS covered a wide variety of topics. When I moved to the American School in Japan, I could slightly remembered the topics because I had already learned it at TYIS.
