

[Yamanakako Center 100th Anniversary Fundraiser]
What you can do for the children of the future - (10/1~)

We would like to express our sincere gratitude to all those who have supported Yamanakako Center over the years, and to continue to work together with everyone to maintain and develop this campground for the future, we will be holding a "Yamanakako Center 100th Anniversary Fundraiser". Your understanding and support would be greatly appreciated.

<Greetings from the Chairperson>

For 100 years since its opening in 1923, Lake Yamanaka Center, located on the shores of Lake Yamanaka with a view of Mt. Fuji, has been offering boating, canoeing, barbecues and campfires to children, including those with disabilities, families and forest schools.

In celebration of its 100th anniversary, the camp is investing in its future with a view to the next 100 years by building a climbing wall and other various program facilities, and renovating accommodation rooms and other facilities to make them easier for families and small groups to use. In addition, we are planning to invite 100 children who have been unable to attend the camp for financial reasons to the camp for free.

Shohei Ueda, Chairman, Tokyo YMCA Lake Yamanaka Center 100th Anniversary Fundraising Committee

<Donation Target> 20 million yen (Total cost: 30 million yen)

<About Yamanakako Center>

The Yamanaka Lake Center is designed with a universal design that makes use of the flat terrain to eliminate as many steps as possible, and has handrails in the restrooms, bathrooms, and other areas to make it easy for young children, the elderly, and people with disabilities to use. The facility is only about 2 hours from central Tokyo, and is widely used for overnight childcare, forest schools, training, and other purposes.
